Congress organized promptly on Monday, 50 Senators and 222 Representatives being present. The construction of the law which pays on the first day three fourth's of a year's salary, doubtless had its effect in producing this prompt at tendance. The Vice President not being pres ent, Mr. Fitzpatrick was made President pro tem of the Senate. Mr. ORR, of South Carolina was elected Speaker of the House, by 125 votes, to \$4 for Mr. Gaow, of Pa., the Republican can didate, and 18 scattering. The currency ques tion was opened by notice of a bill to prevent the issue of bank notes under \$100.

IMPORIANT TO MERGANTICK MEN.—An important decision was yesterday rendered by Judge
Wilson in the U. S. Court in this city. Last
year Mr. T. A. Walton spid a quantity of wheat
to Messre Guylen & Bash, agents for Fitzhugh &
Littlejohn of Oswego, the wheat lying in the
elevator of Mr. H. N. Gates. The purchase
money was paid, and au order for the delivery of
the wheat was given. On the night after the
order was given, and previous to its being weighed out for shipment, the elevator took fire and
the wheat was entirely consumed. Notice had cal out for supposent, the elevator took fire and the wheat was entirely consumed. Notice had been given by the seller to the buyer at the time of sale that no insurance had been effected. The question between the parties now turned on the point whether the wheat was sold "free on board" point whether the wheat was sold "free on board" or not, the purchaser contending such was a part of the terms of a'e, whilst the seller denied any mention being made of such agreement. A suit was brought for the recovery of the money by the purchasers, and the case ably argued during the present week. Judge Wilson yesterday charged the jury that the question to be considered was whether the wheat had actually been delivered to the purchaser. The free the crod was whether the wheat had actually been delivered to the purchaser. The fact of the money being paid and the warehouse order for delivery being given did not suffice. The article must have been actually weighed out to the purchaser before delivery could be legally effected. It not being contended by the defendant that this had been done, jury roturned a verdict for the plaintiff for \$1,907.90, with interest from June 28d, 1856. We understand a motion will be made for a new trial.—Cieveland Herald.

RAILROADS RETURNING TO REASON .- The Cin-

cinnati Commercial says : It is stated that letters were received in the It is stated that letters were received in the city yesterday, to the effect that the management of the New York & Brie Road were insisting upon a concession to the public demand for a roduction of passenger fares to something like the old rates, say \$18,50@20,00 from New York to Cincinnati, and that a refusal to make such reduction would be apt to break up the combination of the four great East and West lines. The report lacks confirmation, but is not improbable.

The Cleveland Herald, after quoting the above

We understand that the New York & Erie We understand that the New York & Erie Road have also agreed to the reduction on freight East insisted on by the line of railroads running along the South shere of the Lake, together with their connections running South. It has discovered that it depends on the Western interests for its daily life, and that it cannot attempt to "whip in" those interests without the lash falling on its own shoulders. We hope the New York Central will also see its true policy, and unite with the Rrie Road in freeing themselves from the "entangling alliances," in which they have hecome involved.

Senutor Douglas is here. The breach between him and the President seems likely to widen.—

SAPE ARRIVAL OF THE CHAS. J. KERSHAW.—
Mr. Kershaw received, on Saturday, the grafife ing intelligence that his nameaske—the bark C. J. Kershaw—had arrived safely at River du Loup, near Quebec.

It will be emembered that this was the third attempt of the Kershaw, she having been obliged to return twice. Her last smiling was trom fellmouth about the 22d of October, making the pressge in a little over 40 days. This is pretty good sailing for this time of the year, and reflects great credit on the Kershaw and her gallant commander—Capt. Pierce. Few men, after so many discouragements, would have so successfully persevered. The Captain is expected in his city in the course of a few days.—Chicago Democrat of yesterday.

CITY MATTERS.

THE OPERA MONDAY NIGHT, -Young's Hall was crowded, on Monday evening, by a most re spectable and appreciative audience, to hear the Opera of Norma performed by our Milwaukee Musical Society. The promise of a rich treat, which had drawn so many to the hall, was abundantly fulfilled. Never before has so excellent a performance gratified and delighted our musica special agent in Kansas, advising with the loving public. The Opera had been well-east Bogus Lecompton Convention. His name is and carefully rehearzed; the chorus, both male and female, was strong, effective, and under excellent deill; while the orchestra was all that state of facts being agreed upon, the State of would be desired. The leading parts had been Virginia sued to recover the value of slaves taken entrusted to good hands, and were well rendered. Mrs. MAHLER, as Adalgisa, sang and acted with her accustomed taste and correctness, and was becomingly dressed. Mr. Jacoss, though Suboring under a hoarseness, gave the music of Severo very acceptably, and in the trio in the first part and the final duett, his sweet, sympa-

rect method, and capital acting, contributed la no small degree to the success of the Opera. But the honors of the evening were borne off by the representative of the Druid Prophetess, Miss Becker. This lady assisted at the Concerts and Oratorios of our Musical Society, soveral years ago, and was much remarked then for her fine voice. She has since enjoyed the advanread, with surprised satisfaction, the report of tage of two years' travel and study in Europe, and has improved vastly in consequence. INVARIABLY IN ADVANCE. MILWAUKEE:

WEDNESDAY MORNING, DEC. 9.

City Property and City Taxes. The News of yesterday comes to the rescue of to show that the taxes in this city are quite light considering the value of property here, and falsely charged the Sentinel with misrepresenting the tacts in the hope of impairing the credit of the city. The News, of course, endorses both Mr. Laidlaw's fictions, and assumes to rebuke the Sentinel, as well as other nameless parties, for compiring to cripple the credit of Milwaukee " by ruthlessly attempting to subduct "from her "real worth." We know of no conspiracy of this sort, unless it be one entered into among the the official lazzaroni who live upon the city, to swell the taxes as much as possible so as to furnth the richer pickings for themselves. As the News sympathizes in this object and shares in the plunder, no wonder that it echoes Mr. LAID-Law, and vituperates the Sentinel. Here is the offence wherewith we stand charged by the

The Sentinel, for reasons too apparent to require recial, delights to defame our city authorities, and has diligently pursued the ungracious occupation till it has become with its editor a habit, and till the labit has become chronic.—And our neighbor has en echo in New York.—The Herald, as Mr. Laidlaw has stated, has copied nearly every item prejudicial to Milwaukee which the Sentinel has from time to time published.

If Mr. Lampaw had stated any such thing, he would have stated a falsehood. But the News, not Mr. Laidlaw, is responsible for this fabrication. The Sentinul has published no items prejudicial to Milwaukee, nor the Herald copied any from our paper; though in common with other New York presees, the Herald has copied many and many an article from the Sentinel advantatageous to Milwaukee. Nor has the Sentinel said anything about "our city authorities" which facts do not fully justify, or which the News their liveried organ, can successfully gaineay.-Indeed, it is because our statements cannot be disputed, or answered, that the News, Mr. LAID-LAW, and other party backs, assail us with abuse. The Democracy and Kausas.

One thing is very certain:—if Mr. Buchanan, openly or secretly, attempts the defeat or evasion of this principle, in its application to the Kansas Constitution, he will be utterly and ignorantiously routed by the Democratic Party of the Northern and Western States. There is absolutely no difference of opinion among them on the subject. Nor is there the slightest besitation, on the uart Nor is there the slightest besitation, on the part of leading organs of that party anywhere, in pro-claiming the utter impossibility of bringing its members to acquiesce in any such proceeding.—
If Mr. Buchanan runs his back, at the very outset of his voyage, upon so conspicuous and plainly marked a rock as this, his skill in political navigation will have been very greatly overrated. The above is a portion of an article in the N.

Y. Times, upon the present aspects of the Kansas question. The Times belongs to the class of papers styling themselves "independent" and conservative," and believes in Gov. Walker .-It betrays a degree of innocence in relation to the character of the " Democratic Party of the Northern and Western States," which is really refreshing-or would be if it were real, and not simulated. There is a decided "difference of opinion" among the adherents of that party on the subject. Quite a number of their leading papers have expressed a degree of confidence in Mr. Buchanan which will lead them to go with him to any extent, even if he shall advocate the right of Slavery to enter the free states. Quite a number, also, who have spoken very decidedly against the acceptance of the Lecompton Constitution by Congress, have since been busily engaged in backing out from their position, and preparing to stand by the President, let him say what he will. The great army of postmasters and other federal office-holders, with a due care for their bread and butter, are ready to acquiesce in any new Kansas iniquity. And the consider-Mr. Buchanan's hoarded treasures of office, are of course ready to go any length necessary.

So that the assertions of the Times must be

received with many grains of allowance; and, although Mr. Buchanan's "bark" is in rather troubled waters, the northern rock, however "councicuous and plainly marked," is composed of very soft material, without sufficient consistency to damage it much; whereas the sharp, jagged, "bard heads," on the other side of the jagged, " hard heads," on the other state and channer, threaten speedy destruction to ship and

A Rebuke from the Right Quarter. The St. Louis Democrat administers an omphatic rebuke to the Washington Iblion for its advocacy of the doctrine that Slavery has a right of existence co-extensive with the United States, and that the Free States have no right to exclude the slaveowner from enjoying the undisturbed

use of his "chattels" within their boundaries. The Democrat, which is the organ of the emancipationists in Missouri, says The doctrines of the article are of the bluest federal stamp, utterly subversive of State rights, and could have sprung from no brain possessed of a Democratic vice. If the Washington Union has advanced such miserable stuff as that, it will,

as it ought to, receive no countenance from any sound Democratic press, North and South, and he sooner its editor abdicates and retires into

AND LIVES LOST,-The Dutch authorities have furnished accounts of the late eruptions of the volcano Amate, In an island near Borneo.

There were two separate eruptions, one on the 2d of March and the other on the 17th. The emission of lava, stones and ashes, was so great as to obscure the sun, and produce total darkness. A violent hurricane and lightning accompanied the eruption. A whole village was destroyed, besides an immense amount of growing tice. Nearly three thousand persons were killed.

"What will he do with it?"

Chilletonics

Under this head the News of yesterday proceeds Osrespondence of the N. Y. Times. New Haves, vedeneday, Dee 2, 1557.

Tuckerman, who was alrested on Sunday high the News thinks that Mr. Buchanan is in the condition of the lucky Englishman, who drew so Elephant in a Lottery, and after he got it, was utterly at a loss what to do with it. Mr. Buchanan, has got an Elephant on his hands, to wit, this Kansas question; and how much he is bothered about it, may be readily inferred from the conflicting and daily varying reports, which reach use from Washington, as to his ylews, wishes and determination in the premises.

The News, however, suggests a very plausible mode of relief to the perplaxed President. It is o consider what Mr. Buchanan will do with the

mode of relief to the perplaxed President. It is corred. In default of \$20,000 bait the prisoner to turn his Klephant loose; i. c. to send the Kansas question, without note, or comment, to its correspondent, Mr. Laidlaw, who undertook | Congress. This, to be sure, will rid the Presidant, for the time being, of his troublesome customer; but the course is neither humane, nor courageous. How does the President know, but that this Kansas Elephant, thus turned loose in the Capitol, may tread down, under his ponderous hoof, or twist up, in his capricious trunk, a dozen prominent democratic leaders, or possibly a whole wing of the democratic party? Is it right that he, Mr. Buchanan, the fortunate owner of this desirable animal, should attempt to dodge the responsibility of his care and keeping, dodge the responsibility of his care and keeping, and thereby expose his political friends and supporters, in and out of Congress, to serious peril of life and limb. Would his illustrious predecessor, Gen. Jackson, have followed such sneaking counsel? Not he? Old 'Hickory would have mounted and ridden the Elephant himself. And sor, Gen. Jackson, have followed such sneaking counsel? Not be! Old Hickory would have mounted and ridden the Elephant himself. And that is what Mr. Buchanan will do, unless, unlike Old Hickory, he is afraid "to take the responsibility."

the Brooklyn Fugitive Slave Case This case is an interesting one. The "chatal," James, was owned in Augusta, Georgia. Ic had married a free mulatto woman, who some time ago came North, by arrangement. James went to Savannah and, being so nearly white as to xcite no suspicion, bought a second class ticket in a steamer for New York, and left port. His owners traced him to Savannah, and telegraphed to Mayor Wood, of New York, to attend to his

case. On the arrival of the steamer, several special policemen came aboard, and after a good deal of difficulty detected " James," (by the waving of his heir, it is said,) and hurried him over to Brooklyn, where he was kept, in charge of two officers, at the house of a man named Mc-Nulty, waiting for a chance to send him back without trouble. A benevolent gentleman connected with the N. Y. Independent, hearing of the case, got out a Writ of habeas corpus, and the man was brought before Judge Culver, who, finding no pretence of authority for keeping him in custody, ordered his discharge, and he left for a region of safety, accompanied by his wife.

The case did not end there, for the four officers, two of whom arrested the man James, while the other two guarded him at McNulty's, were arrested and held to bail in \$1,000 each, to appear for trial on the charge of kidnapping, under the following statute:

"Every person who shall, without authority of law, fordbir remove or attempt to remove from this State any fugitive from service or labor, or any person who is claimed as such fugitive, shall forfeit the sum of \$600 to the parties aggrieved, and shall be deemed guilty of the crime of kidnapping, and upon conviction of such offence shall be punished by imprisonment in the State Prison for a period not exceeding ten years."

"From Forney's Press, December 2. From Forney's Fress, December 7.

Hon. Robert J. Walker.—The Governor of Kansas' reached Philadelphia yesterday noon, and is the guest of his relative, St. George Tucker Campbell. Governor: Walker leaves for New the sooner its editor abdicates and retires into winter quasters, the better for the country and the Democratic party.

The value comes appropriately from the leading organ of a party, which, from a Slave State, sent so true a Republican as F. J. Blair to Congress; but the Democratic party.

Mr. Morphy's cartel, having been ignored by the playing members of the Club, was accepted by Mr. Charles S. Stanley, who for many years held the sceptre of cis-Atlantic chess-playing. The description of that individual was given with considerable accuracy of detail at the time, and has been found to agree in almost every particular the research appearance of Tucker-

Before the time of the News Letter, however, placards were printed, in 1680, differing from Newspapers in not being serial, and avowedly intended to prevent the mischief of false reports, at a time when an agent of the colony was in London trying taget a new charter. The Boston News Letter was printed by the Post Master.—It was printed on a half-sheet, of writing paper, and issued weekly. The news was usually about 4 months old in this paper, semetimes running behind until it was a whole year in arrears.

After the Revolution the Newspaper press multiplied in an almost indifficate ratio. The Newspaper publisher penetrated into almost every settlement. He took with him his old wooden press, he carried his paper on horseback hundreds of miles, he delivered the numbers to his subscribers, before post routes were catabilished; and all this he did usually for a subscription rate of \$1,50 a year.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the inercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, ourse the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy, or a cure for debilitated system, than Dr. Sanford's Invigorator, for it has been fully tried in a large and extended practice, till its results are fully known, and now it is offered as a tried remedy, and one that can be relied on.
